Picture perfect plasma magic

Now you can really enjoy the bigger picture!

Imagine a screen that can display pictures up to 50 inches wide. Imagine that screen being as slim as the average picture frame (a mere 9.8cm).

Now you need imagine no more, as Toshiba brings you the fantastic 42WP16 (42 inch) and the 50WP16 (50 inch) plasma displays. These displays use the latest technology to create fantastically clear images.

Because the plasma panel emits light evenly, your audience can enjoy wide angle viewing with minimal flicker wherever they're sitting in the room.

You won't break the bank dazzling your audience either. Toshiba has made these displays highly energy efficient; the 42WP16 even features a fanless cooling system, which means reduced noise and energy savings.

If you're looking to add a little luxury and excitement to your home viewing experience, then the 42WP16 and 50WP16 are the answer.

They can also make stunning additions to any reception area, office or boardroom as well as provide that much needed stand-out point of sale display.

The Power of Plasma

- 3000:1 contrast means ultra high quality images.

Speedy set-up

- Toshiba plasma panels can be placed anywhere, as they are not affected by the Earth's magnetic field - unlike conventional large screen monitors.

Crisper Colours

- Toshiba's special 'Solid Black Enhancer' overcomes the technical problems associated with producing a good contrast ratio, resulting in a class-leading ratio of 3000:1. 'Natural Bright Control' brings you truly life like images where white is really white and colours are faithfully reproduced.

Multiple Inputs

- Devices from DVD and VCR through to camcorders and PC's can be directly connected to the plasma panel for a multitude of applications.

Wide Angle Vision

- Wide Angle Vision means a clear picture at up to 160°.
- Reduced flickering ensures the ultimate in comfortable viewing.

Additional Accessories Range

- Wall mounts, pedestals and speakers can be added for increased versatility.

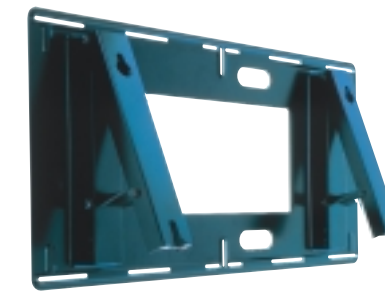

42/50WP16

Wall Mounting Brackets

Fixed Bracket - PWB501
930 x 490 x 20mm (w x h x d)

Angled Bracket - PWB502
930 x 490 x 55mm (w x h x d)

Pedestal Stand

Pedestal Stand - PTS501S
Compatible with both the 42" and 50" screens
727 x 270 x 62mm (w x h x d)
